SUMMARY

Full-stack and mobile developer building React, Next.js, Flutter, Expo, React Native, Django, NestJS, and production AI workflows. Experienced with AI SDK, ai-sdk/react realtime chat, OpenAI SDK, agentic product flows, clean UI systems, API-backed applications, and product release execution.

CORE SKILLS

Frontend: React, Next.js, Redux Toolkit, Material UI, Tailwind CSS, responsive component systems

Mobile: Flutter, Expo, React Native, Firebase, Supabase, Google Maps, GPS tracking, push notifications

Backend: Django, Node.js, NestJS, REST APIs, PostgreSQL, MongoDB, authentication, data workflows

AI: AI SDK, ai-sdk/react, OpenAI SDK, agentic workflows, realtime AI chat, AI/ML integrations

EXPERIENCE

Front-End and Mobile Developer

Jul 2022 - Present

Popup

- Led AI-driven restaurant menu generation from user preference and inventory data.
- Integrated authentication protocols, improved user interaction flows, and shipped continuous product updates.

Front-End Developer

Jun 2023 - May 2024

Venture Haven

- Served as senior developer on a high-profile React.js project.
- Improved component design, Redux Toolkit state flows, REST API integration, and Material UI consistency.

Full Stack and Mobile Developer

May 2021 - Dec 2022

Blocks Matrix

- Managed complete web and mobile project lifecycles across React, Next.js, Expo, React Native, Flutter, and Django.
- Built secure backend APIs, data workflows, and production-ready interfaces for client projects.

SELECTED WORK

Realtime AI Chat

Realtime assistant interface using ai-sdk/react streaming patterns, tool-aware agent flows, and production UI state handling.

[ai-sdk/react](#) / [OpenAI SDK](#) / [Next.js](#)

My Personal Tracker

Flutter and Supabase app for logging and visualizing freelancing milestones, maintained publicly on GitHub.

[Flutter](#) / [Supabase](#) / [Open Source](#)

AI Restaurant Menu Generation

Menu generation workflow combining user preferences and inventory data with AI SDK and OpenAI SDK patterns for practical product automation.

[AI SDK](#) / [OpenAI SDK](#) / [React](#) / [REST APIs](#)

E-bike

Mobile platform with Google Maps, Firebase, GPS tracking, and push notification flows for location-aware mobile UX.

[Flutter](#) / [Firebase](#) / [Google Maps](#)
